

HealthyCircles — Public Portal

<https://connect.healthycircles.com>

I'm a Consumer.
Distance should not mean being disconnected from care.

I'm a Professional.
Deliver better care, to more patients, at a fraction of the cost.

Connect. Share. Care.™

HealthyCircles is an integrated suite of online Professional and Consumer Portals that seamlessly connects Health Care Professionals to Patients, their Families and other members of a Patient's Care Team including other Health Care Professionals.

HealthyCircles makes health information transportable and flow seamlessly across the spectrum of Health Care Institutions, Organizations and Stakeholders.

HealthyCircles For Consumers

Using the HealthyCircles Consumer Portal, you connect to your Health Care Professionals. This Portal includes your Personal Health Record and Secure Messaging through which designated Care Team members communicate while interactive Health Programs and Services support your care. [Click to begin.](#)

HealthyCircles For Professionals

Using the HealthyCircles Professional Portal, you connect to your Patients. This Portal is designed to help you deliver better patient care and to expand access to your services while optimizing practice efficiency. This Portal speeds the exchange of relevant health information across the continuum of care, allowing convenient access to Patient information, enables shared decision-making and offers new revenue-generating opportunities. [Click to begin.](#)

The HealthyCircles Professional Portal connects Health Care Professionals to their Patients. This portal is designed to help the Health Care Professional deliver better patient care and to expand access to their services while optimizing practice efficiency. This portal speeds the exchange of relevant health information across the continuum of care, allowing convenient access to patient information, enables shared decision-making and offers new revenue-generating opportunities.

Increase Patient Connectivity

Through HealthyCircles' familiar, social networking based platform, you can be confident in knowing your patients will become and stay connected to you. Having the support of a patient's entire Care Team will also ensure everyone entrusted with the patient's care will actively participate.

[+ More](#)

Drive Adoption through HealthyCircles *Engage*

Deliver customized and effective population-level interventions or Care Solution Packages to a specific audience while monitoring actual clinical outcomes that are linked to the quality, safety and cost of care.

[+ More](#)

Reduce Costs through Connected Clinical iForms and Assessments

HealthyCircles features the Care Solutions Directory where Health Programs and iForms are accessed by your patients and eliminates the need for paper-based preadmission forms, health risk appraisals or even risk assessments.

[+ More](#)

Deliver Care Solutions

HealthyCircles helps you deliver: Transitions in Care, Medication Management, Wellness Coaching, Senior Caregiving, Home Health Nursing Services, Medical Home Initiatives, Corporate Wellness, Clinical Workflow Optimization and Family Caregiver Services.

[+ More](#)

Streamline Calendar and Scheduling Workflows

The HealthyCircles Calendar System allows you to set, manage and track patients' appointments. With convenient access to patients' electronic patient record, you have everything you need for superior care management readily accessible.
